Hi – Leslie's out and I tried to send this from Ken's email but looks like I sent it from mine. I'm not very good at working in someone else's email. I blind copied myself and a couple of people, but will forward to the group of you.

**Subject:** IRIS Arsenic Risk Assessment

Dear Dr. Olden:

As EPA develops its Integrated Risk Information System (IRIS) draft assessment of inorganic arsenic (iAs). I am submitting a transmittal letter concerning recent publications we submitted to EPA for its consideration and issues we

have found in attempting to follow the EPA IRIS process and accessing and understanding what publications are being taken on board for consideration and which one are given lesser or no consideration. Please see our attached letter.

Thank you for your consideration.

Kind Regards

Bill
